FREIBERGAE, Litteris MATTHAEANIS.

XXXIX.

Vtrum exteris in republ. locus sit concedendus? iam dudum maxima cum contentione disputatum fuit. Lycurgus, legum Spartanarum laude clarissimus, singulari edicto cauit, ne Lacedaemones hominem peregrinum in ciuitatem adficerent, veritus, ne istius consuetudine mores patrii deprauarentur. Quos Corinthii sequuti, Alexandro M. Asiae victori, per legatos ius ciuitatis offerentes, quum ille hoc officii genus rideret, his verbis, quo haberi ininitum consilium vellent, docebant: *Nemini unquam, quam Herculi et tibi, peregrinis, dedimus ciuitatem.* a) Apud Romanos autem peregrini lege Petronia et Papia à republ. capeffenda ita prohibebantur, ut Iulius Caesar hanc ob causam in maximam inuidiam ciuium suorum incurreret, quod externos in senatum receperat. b)

Fuerunt autem etiam, qui alia sentientes, ciuitatis iura nulli peregrino denegarunt, quicunque idoneus ad capeffendam republ. videretur. Qua in sententia PHOCYLIDES fuit, ciues suos his verbis exhortans: c)

ἔβωσαν ὁ ὁμοῖμοι ἐπηλυδες ἐν πολιῆταις,

h. e. pari honore indigenas habe atque alienigenas. Hac mente Athenienses, perspecta exterorum virtute, Apollodoro *Cyziceno*, Heraclidi, *Clazomenio*, Phanotheni, *Audrio*, aliisque foris natis publicarum prouinciarum procuracionem demandare non dubitabant. Romani autem, tantum abest, ut semper legibus supra commemoratis inhaerent, ut potius, intermisso tempore etiam peregrinos in eivtatem adlegerent, quorum accessione republ. et amplificari et ornari videbant. *Dum enim*, ut est apud LIVIVM d) *nullum genus hominum fastidiebatur, in quo virtus eniteret, mirifice creuit imperium Romanum.* Et hoc nomine CLAVDIANVS principem, quem decantat, inprimis commendat; e)

lectos ex omnibus oris

Euehis, et meritum, nunquam cunabula quaeris,

Et, qualis, non unde satus.

Inprimis autem in re scholastica externos et peregrinos non minus effuluisse, quam inquilinos, cum ex veterum annalibus, tum ex nostrae aetatis monimentis probari potest. Quis nescit, *Archiam*, patria Antiochenum, de Romana iuuentute tam praeclare meruisse, ut Cicero eam ob causam à Graccho in ius vocatum, quod ciuitate donatus non esset, elegantissima illa oratione, contra friuolas istas calumnias defenderet. Quis nescit, quanta cum dignitate M. *Fabius Quintilianus*, ex urbe Calagurensi in Hispania ortus, ab Imperatore Galba Romam deductus fuerit, ibique tanto honore floruerit, ut ab ipso MARTIALI f) *summus moderator iuuentae, et gloria Romanae togae* cognominaretur. Cui ignotum est *Plinii* nomen, qui non solum ipse alienigena, Comensis, erat, sed etiam Isaeum, Assyrium natione, rhetorem maximo in pretio à Romanis habitum, amplissima laude extollit. g) Et facile foret, exemplis in medium adlatis, ostendere,

dere, plures alienigenas scholis publicis fuisse praefectos, quam indigenas et inquilinos. Quod utrum fato quodam eueniat, an deliberato consilio eorum, qui curam illarum officinarum sustinent, aliis relinquimus diiudicandum. Idem vero beneficium, quo docentes fruuntur, etiam ad discentes pertinere, quotidiana experientia confirmat. In nostra certe schola Freibergensi maiorem esse numerum discipulorum extraneorum, quam intra urbis pmoeria natorum, negari non potest. Quanto igitur gaudio hortulanus perfunditur, videns, frutices atque arbores aliunde aduectas auspicate adolefcere; tantam voluptatem, fidelis magister ex iuuenibus aduenis et foris commodatis et suo sub auspicio feliciter adultis perfentiscit. Et quemadmodum nuper initium fecimus eorum discipulorum extraneorum recensendorum, qui superiori seculo in hac sapientiae et virtutum palaestra versati sunt; ita nunc, veterem nostrae scholae gloriam restauraturi, hoc negotium persequemur.

Quemadmodum autem ex horum numero procul dubio plurimi in viros euaserunt, qui vel ecclesiae vel re publicae insignem fructum compararunt: ita, diuino praedidio ornata, adhuc habet schola nostra, quod impense sibi gratuletur, tales iuuenes complexu suo fouens, quales ad dignitatem illius tuendam et famam ad posteros transmittendam expectantur. Inuius in animi dotes diuinitus concessas, imo in ipsam virtutem videri, si alia de duobus illis adolescentibus sentire vellem, qui cras, bono cum Deo, vires in dicendo periclitabuntur. Et alter quidem

Alter vero

GODOFR. BENEDICT. FVNCKE, *Hartenstein.*

in quo natura faurix erecti ingenii facilitatem cum pertinacii discendi industria et recte agendi proposito felicissime confociauit, illius beneficii memor, quod vir immortalis nominis, BARTHOLOMAEVS IENICHIVS, alumnis mensae liberalis in conuictorio Freibergensi legauit, et quo ipse adhuc ex singulari Praetorum indulgentia fruatur, de *bonis corporis ad iuuandam animi felicitatem adcommodandis*, oratione Latina perorabit.

Hi igitur prouinciam sibi demandatam hoc alacriori animo suscipient, quo luculentioribus exemplis Vestram, MECAENATES, FAVTORES, atque AMICI, in auscultando humanitatem sibi cognitam expectant? VOS ergo pro Vestra erga scholarum benefactores voluntate, Vestroque in iuuenes bonae notae studio, hos conatus honestissimos beneuolentia prosequimini, et cras, audita hora ante meridiem nona, loco consueto ad audiendos oratores conuenite: de nobis autem ita existimate, omni nos studio prouiros, ne Vestro amore aut abutamur, aut excidamus.
